

INVITES you to come and participate,
**On Saturday, 16th March 2024, from 9:00 a.m. at the CCISM -
Concordia**
for its first conference on green energy transition,

**“CHALLENGES AND PROSPECTS FOR THE
IMPLEMENTATION OF RENEWABLE ENERGIES IN OUR
SMALL ISLAND TERRITORIES”**

ENSOLUS is pleased to confirm the presence of the following speakers :

- **Ms Clara Brander**, DPLG Architect, President of the Saint Martin Architects' Association and Treasurer of our association, will introduce first remarks on the challenges and prospects of energy autonomy ;
- **Ms Murielle Mathias-Planques**, St Barth and St Martin CEPAC agencies' Director, will talk about green financing in the Northern Islands and in particular the notable progress made in Saint Barthélemy ;
- **Ms Sabrina Charville**, Quality and Sustainable Development Director at Grand Case Airport, will discuss EDEIS' ecological commitment to the airports it manages, and in particular, in Grand Case ;

And coming expressly from Guadeloupe :

- **M. Eustase Janky**, Former President of the University of the West Indies who will encourage our young people to embrace careers related to the development of renewable energies, will discuss the existing courses at the University of the West Indies and will advise interested future students (Parcoursup) ;
- **M. Ted Soubdhan**, physicist at the University of the West Indies, Head of Master "Energy Management in Smart Cities", will talk about solar domestic installations, industrial wind installations, domestic and industrial hydrogen installations and how to mix these three types of energy to sustain energy supply.
- **Waiting for a surprise guest.**

Each intervention will last 10 to 15 minutes, maximum, after which a short Q&A session will open with the audience.

ENSOLUS is counting on your presence, many of you, to make our dream of energy independence a reality!!
